HAVE YOU UPDATED YOUR WASS ID PASSWORD IN THE LAST 60 DAYS?

Passwords must be changed every 60 days for the Secure Systems.

<http://www.hud.gov/offices/react/>

Secure Systems (WASS) Id (M-Id) and password. If you do not yet have such an Id and password, you should get one as soon as possible. Go to http://www.hud.gov/offices/react/online/regis_instrc.cfm for instructions.

A user ID is required to establish a "secure connection" to HUD's secure systems from the Internet. HUD's secure systems provide a means for trusted business partners to submit and retrieve required program information. If you require access to one or more of HUD's secure systems and do not have a user ID, you must register for one by completing the appropriate online registration form.
